Gentlemen:

Thank you for your letter of January 3, 1986, in response to our letter and Notices of Violation and Deviation dated December 5, 1985. Based on telephone conversations between your Mr. G. E. Wuller and Mr. H. D. Chaney of this office on January 22 and 23, 1986, concerning your response to violation 382/8526-02, we understand that the revisions being made to station procedure RW-2-200 will not result in decreased controls regarding the processing/packaging of solid radioactive waste.

Based on a review of your written reply and the above discussions, we have determined that you have been responsive to the Notices of Violation and Deviation. We will review the implementation of your corrective actions during a future inspection to determine that full compliance has been achieved and will be maintained.

Sincerely,

"Original Signed by"
