

ENCLOSURE 1

NOTICE OF VIOLATION

Georgia Power Company
Hatch Unit 2

Docket No. 50-366
License No. NPF-5

During the Nuclear Regulatory Commission (NRC) inspection conducted on June 20-24, 1988, a violation of NRC requirements was identified. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," 10 CFR Part 2, Appendix C (1988), the violation is listed below:

License Condition 2.c(3)(b) for plant Hatch Unit 2 requires Georgia Power Company to implement and maintain in effect provisions of the Fire Protection Program as contained in the Unit 1 and Unit 2 Fire Hazards Analysis and Fire Protection Program.

Section 2.8.1 of Appendix B of the Unit 1 and Unit 2 Fire Hazards Analysis and Fire Protection Program requires that the Halon System protecting the Remote Shutdown Panel be inspected at least once per 62 days with a 25% grace period.

Section 7.0 of Appendix A of the Unit 1 and Unit 2 Fire Hazards Analysis and the Fire Protection Program requires these surveillances and inspection activities be documented and that these records be properly stored.

Contrary to the above, an inspection of the Halon System protecting the Remote Shutdown Panel was not conducted between August 19 and November 20, 1987. Failure to complete an inspection between these dates exceeds the interval of 62 days plus a 25% extension. In addition, the records documenting the May 13, 1987, inspection had not been transmitted to Document Control.

This violation is similar to a violation issued December 18, 1987.

This is a Severity Level IV violation (Supplement I).

Pursuant to the provisions of 10 CFR 2.201, Georgia Power Company is hereby required to submit a written statement or explanation to the Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, DC 20555, with a copy to the Regional Administrator, Region II, and a copy to the NRC Resident Inspector, Hatch Nuclear Plant within 30 days of the date of the letter transmitting this Notice. This reply should be clearly marked as a "Reply to a Notice of Violation" and should include: (1) admission or denial of the violation, (2) the reason for the violation if admitted, (3) the corrective steps which have been taken and the results achieved, (4) the corrective steps which will be taken to avoid further violations, and (5) the date when full compliance will be achieved. Where good cause is shown, consideration will be given to extending the response time. If an adequate reply is not received within the time specified in this Notice, an order may be issued to show cause why the
