WILLIAM G. COUNCIL  
EXECUTIVE VICE PRESIDENT

Mr. Eric H. Johnson, Acting Director  
Division of Reactor Safety and Projects  
U.S. Nuclear Regulatory Commission  
611 Ryan Plaza Drive, Suite 1000  
Arlington, TX 76012

SUBJECT: COMANCHE PEAK STEAM ELECTRIC STATION  
DOCKET NOS. 50-445 AND 50-446  
CONDUIT SUPPORT SPANS  
SDAR: CP-85-19

Dear Mr. Johnson:

On May 15, 1985, we verbally notified your Mr. D. Hunnicutt of a deficiency regarding the use of a nonrepresentative sample in determining generic values for typical conduit span calculations. This is an interim report of a potentially reportable item under the provisions of 10CFR50.55(e). We have submitted interim reports logged TXX-4489 and TXX-4597, dated June 11, 1985, and October 16, 1985, respectively. This issue is related to CP-85-34, Conduit Support Design, which is being evaluated under CPRT Program Plan Item VIII and scheduled for resolution by April 25, 1986.

We are continuing our evaluation and anticipate completion of our final report by May 16, 1986.

Very truly yours,

*W. G. Council*
