Dear Mr. Johnson:

On January 9, 1986, we verbally notified your Mr. T. Westerman of a deficiency regarding a design change to the turbine-driven auxiliary feedwater pump which alters its performance capabilities. This is an interim report of a potentially reportable item under the provisions of 10CFR50.55(e).

We are continuing over evaluation and anticipate completion of our final report by March 7, 1986.

Very truly yours,
