(Project No. 675)

Mr. Guy Vissing, Project Manager  
Standardization and Non-Power Reactor  
Project Directorate  
Office of Nuclear Regulation  
Attn: Document Control Desk  
U. S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Subject: Revision 05 to Combustion Engineerings Quality Assurance  
Topical Report, CENPD-210

Reference: Letter, A. E. Scherer (C-E) to G. S. Vissing (NRC),  
LD-88-033, dated May 23, 1988

Dear Mr. Vissing:

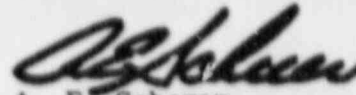

The reference letter provided responses to several NRC questions concerning Chapter 17 of CESSAR-DC, Quality Assurance. The reference also identified that the remaining questions would be addressed in Revision 05 to our Quality Assurance program description, CENPD-210, and submitted by the third quarter of 1988.

The purpose of this letter is to inform you that we are finalizing our review and anticipate that we will be transmitting CENPD-210, Revision 05, in September of 1988. At that time we will also submit a "road map" which identifies where in Revision 05 the remaining Quality Assurance questions are specifically addressed.

Should you have any questions, please feel free to contact me or T. L. Cameron of my staff at (203) 285-5217.

Very truly yours,
