TO WHOM IT MAY CONCERN:

The policies, requirements, and tasks described in this Stone & Webster Engineering Corporation Standard Nuclear Quality Assurance Program (SWSQAP) have been developed to fulfill a recognized need for assurance that requisite quality is achieved in design, procurement, and construction.

Stone & Webster Engineering Corporation procedures which implement this program are described in various manuals which are referenced herein.

The development and overall responsibility for this Quality Assurance Program lies with the Vice President of Quality Assurance, who shall report conditions adverse to quality and/or in conflict with these program requirements to the President and affected Department Heads, as appropriate.

The Vice President, Quality Assurance is responsible for the administration and management of the Quality Assurance Program as applied to procurement and construction activities. The Chief Engineer, Engineering Assurance Division of the Engineering Department is responsible for the administration and management of the Quality Assurance Program as applied to engineering and design activities. Revisions, additions to, and audits of this program are the responsibility of the Vice President, Quality Assurance and the Chief Engineer, Engineering Assurance Division, for their respective assigned areas. Any revisions or additions shall be approved by affected Departments prior to the incorporation of such changes into the Program.

F. W. Ries  
President
