Attention: Mr. G. C. Sorensen, Manager
Regulatory Programs

Gentlemen:

SUBJECT: ACCEPTANCE OF CHANGES TO THE QUALITY ASSURANCE
PROGRAM FOR NUCLEAR PROJECT 3

We have reviewed the changes and corrections you submitted on February 26, 1988 to Amendment No. 7 of the FSAR Section 17.3. Based on our review of these changes we find that the QA program description for the preservation stage of WNP-3 continues to meet the requirements of 10 CFR 50, Appendix B and is, therefore, acceptable. If there are changes to other operative QA commitments existing in docketed correspondence outside of the SAR QA program description, you are obligated to notify this office. Implementing such changes should be based on 10 CFR 50.55 (f)(3).

Should you have any questions concerning this review, please contact W. J. Wagner of my staff on (415) 943-3731.

Sincerely,

Dennis F. Kirsch, Director
Division of Reactor Safety and Projects
