COMMISSIONERS
Nuclear Regulatory Commission
1717 H Street, N.W.
Washington, D.C. 20555

Dear Commissioners:

I would like to thank you for your decision to prevent the re-opening of the Byron nuclear power plant in Illinois recently.

As a Southern California resident, I along with many thousands of others am concerned about the re-opening of the nuclear power plant at Diablo Canyon in California.

I therefore appeal to you to prevent the re-opening of this plant under present circumstances. It is important that proper hearings on quality assurance and construction first be held. It is also important that an investigation of this facility's safety not be tainted by fabricated evidence presented by operators with a vested interest in obtaining approval at the expense of safety.

Sincerely,

(signature)
