G. Wayne Kerr, Director  
Office of State Programs  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

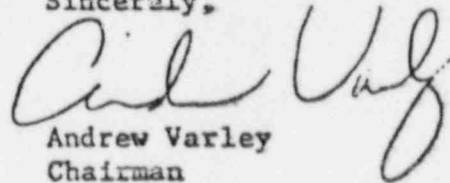

Dear Mr. Kerr:

As Iowa's liaison to the Nuclear Regulatory Commission, I have been receiving telephone calls from NRC, both Washington and regional offices, whenever there is a report required to be made to the state concerning a nuclear mishap or incident.

In order that such information may be disseminated to the appropriate persons more rapidly, I would appreciate your changing your records to indicate a member of the Commission staff as the telephone contact to receive such reports. Effective immediately, all telephone contacts concerning mishaps or incidents should be reported to Thomas L. Houvenagle, Special Projects Engineer, Area Code 515, 281-5920.

Your cooperation in providing this information to your regional offices as well as to your Washington office is appreciated. Should you have any questions or whenever I may be of assistance, please let me know.

Sincerely,

  
Andrew Varley  
Chairman
