R. A. Muench to USNRC

Subject: Docket No. 50-482: Response to Request for Additional  
Information on the Proposed Conversion to the Improved  
Standard Technical Specifications, Section 3.4 and 5.0

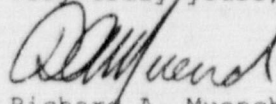

Gentlemen:

Wolf Creek Nuclear Operating Corporation (WCNOG) requested an amendment to the Wolf Creek Generating Station (WCGS) Unit 1 facility operating license (NPF-42) by incorporating changes to the WCGS Technical Specifications (TS) as provided in Reference 3. The NRC staff requested additional information regarding Section 5.0, "Administrative Controls," of the proposed TS changes in Reference 1. The NRC staff requested additional information regarding Section 3.4, "Reactor Coolant System," of the proposed TS changes in Reference 2. The requested information is provided in the Attachments and Enclosure to this letter. Also included are additional changes needed for Section 5.0, and Section 3.4 as identified by WCNOG.

This letter and Enclosure are not a supplement to Reference 2 and have not been reviewed by the Plant Safety Review Committee or Nuclear Safety Review Committee. A supplement to Reference 3 will be provided at a later date.

If you have any questions concerning this response, please contact me at (316) 374-8831, extension 4034, or Mr. Michael J. Angus, at extension 4077.

Very truly yours,

  
Richard A. Muench
