

February 20, 1986

Docket No. 50-288

Dr. M. A. Kay, Director
Reactor Facility
Reed College
3203 S. E. Woodstock Boulevard
Portland, Oregon 97202

Dear Dr. Kay:

SUBJECT: EMERGENCY PLAN ACCEPTANCE

The staff of the U. S. Nuclear Regulatory Commission (NRC) has completed its review and evaluation of the revised emergency plan for the Reed Reactor Facility dated September 15, 1985 with revisions submitted on December 18, 1985 and January 14, 1986, in compliance with 10 CFR 50.54(q) and (r). The plan was reviewed against the requirements of Appendix E to 10 CFR Part 50, the guidance criteria set forth in Revision 1 to Regulatory Guide 2.6 and ANSI/ANS-15.16-1982, "Emergency Planning for Research Reactors."

Based on its review, and as discussed in the enclosed evaluation, the staff concludes that the emergency plan for the Reed Reactor Facility meets both the requirements of the regulations and the guidelines provided to you and is, therefore, acceptable. We request that you begin to implement your approved emergency plan immediately, with full implementation to be accomplished within 120 days of the date of this letter. Furthermore, you are requested to inform us by letter of the date on which complete implementation is achieved.

If you have any questions, please contact John Dosa, our Project Manager for your facility, at (301) 492-8207.

Sincerely,

Original signed by
