On January 17, 1986, the meeting was reconvened at the BSEP site in Southport, NC. As indicated, the purpose was to discuss the status of BSEP licensing actions. Summary of Meeting January 16, 1986

As indicated, the purpose of the meeting was to conduct a joint review of all CP&L licensing actions involving BSEP. This meeting was moved to Raleigh to tie in with a related site visit the following day at the BSEP site.

The major licensing issues as listed in the licensing action report were discussed.

Summary of Meeting January 17, 1986 at the Brunswick Site:

The meeting at the site had two purposes. One purpose was to continue discussion of some of the items discussed at the Raleigh meeting by observing the areas and the equipment involved. In particular, this included the Emergency Response facilities, the cable penetrations in the control room floor, and the nitrogen switchover system. The other purpose was to attend the maintenance survey exit meeting.
