SUPPLEMENTAL RESPONSE TO IE INSPECTION
REPORT NOS. 50-325/88-06 AND 50-324/88-06

Gentlemen:

In your acknowledgement of our response to the Notice of Violation identified in NRC Inspection Report Nos. 50-325/88-06 and 50-324/88-06 dated April 25, 1988, a commitment was identified to provide by May 3, 1988, a copy of the Engineering Evaluation Report (EER) which established numerical limits for abnormal or erratic data (stroke times). A follow-up telephone conversation between Mr. J. J. Blake (of your staff) and Mr. R. M. Poulk, Jr., on May 3, 1988, concluded that submittal of the EER by May 13, 1988, would be sufficient. This additional time is to allow clarification from the ASME Code Committee on issues addressed by this EER.

Very truly yours,

C. R. Dietz, General Manager
Brunswick Steam Electric Plant
