Gentlemen:

SUBJECT: REPORT NO. 50-160/85-04

Thank you for your response of January 22, 1986, to our Engineering Preparedness Appraisal Report issued on December 18, 1985, concerning activities conducted at your Georgia Tech Research Reactor facility. Your response indicated a lack of understanding of the meaning of the item described in Appendix B, Number 6. This item was clarified in the telephone conversation between Dr. Karam and Mr. R. Marston of this office on February 13, 1986. We will examine the implementation of your corrective actions during future inspections.

We appreciate your cooperation in this matter.

Sincerely,

Original Signed by
