Dear Mr. Wilgus:

SUBJECT: CRYSTAL RIVER UNIT 3 (CR-3)-EFW RELIABILITY
REVIEW (TAC NO. 64208)

By letter dated December 2, 1986, you submitted your Crystal River Unit 3
Emergency Feedwater System Reliability Analysis, SAIC-86/1098 OCW.

Subsequently, you responded to staff comments, and based on a preliminary
review of these responses, we have determined that several concerns still
remain.

However, as indicated in our letter dated April 29, 1988, which transmitted our
evaluation of the CR-3 EFW system reliability under Generic Issue (GI)-124, the
reliability analysis constituted but one of many parameters in our consideration
of overall EFW system reliability. The resolution of the remaining concerns
in the reliability analysis had been judged to be of relatively minor importance
and did not constrain completion of the GI-124 report.

Therefore, completion of our review of your EFW Reliability Analysis would
serve little useful purpose, and we are terminating staff effort on the subject
TAC.

Sincerely,

Harley Silver, Sr. Project Manager
