Docket No. 50-352 *DL*

Director
Office of Resource Management
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

SUBJECT: Revision to Limerick Generating Station
Monthly Operating Report

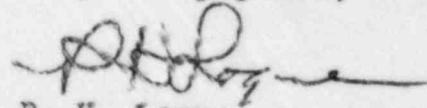

Gentlemen:

Enclosed are revised data sheets to the monthly operating report for Limerick Unit 1 for the months of August, 1985; September, 1985; October, 1985; and November, 1985 correcting previously submitted information. An error of 129 MWh, which carried through since August, 1985, was caused by miscalibration of the station watt-hour metering.

The submittal of the enclosed data sheets is to provide accurate year-to-date and cumulative values for Gross Thermal Energy Generated (MWh), Gross Electrical Energy Generated (MWh), and Net Electrical Energy Generated (MWh). These changes are identified by a vertical bar in the margin.

If you have any questions regarding the enclosed material, please contact W. M. Alden at (215) 841-5022.

Very truly yours,

R. H. Logue
Superintendent
