Gentlemen:

SUBJECT: NOTICE OF MANAGEMENT MEETING

During our most recent safeguards inspection at Plant Vogtle, (50-424/88-19, April 25 - 29, 1988) we were pleased to note several improvements within your security program and organization. It appears that your Vogtle security staff has made a positive impact in correcting many of the vulnerabilities specified in our previous enforcement correspondence.

We still remain concerned with site and corporate management attention to resolving the issue of vital area barrier integrity. Your March 14, 1988, letter relative to this topic was reviewed during the April inspection, and your staff was informed of our disagreement with the conclusion of the letter. In particular, you did not inspect a large number of areas because you categorized them as "inaccessible" for one reason or another. We disagree with that categorization and believe they should have been included in your original program. We were advised by your staff that the matter was receiving priority reassessment.

It appears to us that a management meeting is appropriate to discuss your March 14 letter; additionally, the large number of unsecured vital area doors will be addressed. These two items were identified in our Exit Meeting held on April 29, 1988. We propose to hold this meeting on May 19, 1988, at 10:00 a.m. in our office.

If we can be of further assistance in this matter, please do not hesitate to contact us.

Sincerely,

*Joe A. Gibson*  
J. Nelson Grace
