9-14-88*

Gentlemen:

Enclosed, please find a copy of the Nine Mile Point Security and Safeguards Contingency Plan in its entirety. This incorporates the Miscellaneous Amendments and Search Requirements which we submitted to you on December 2, 1986, and November 25, 1987, respectively, for your approval. On July 13, 1988, we received your letter dated July 5, 1988, approving these amendments.

With this submission, we would like to define what we consider a Security Force Member; reference Section 3.3.1.1, page 14.

We are fortunate enough to have our own Security Instrument and Control and Training Departments which often requires them to perform official duties outside the Protected Area, be it for repairs to the Intrusion Detection System or guard training on testing the Intrusion Detection System, therefore, the subject individuals will not be searched subsequent to their initial search, provided they meet the additional requirements of this section.

In addition, we would like to take the opportunity to submit Revision 6 to the existing Plan in accordance with the provisions of 50.54 (p). The specific changes are set forth in Attachment A. The changes are marked with a vertical line in the right hand margin and dated September 6, 1988. Attachment B will demonstrate that these changes do not, by any means, decrease the level of Safeguards effectiveness of the Plan.

We apologize for the inconvenience that this complete submission may cause you, however, it was necessary to expand certain sections and as a result, page numbers changed.

We hereby request that the material submitted with this letter be withheld from public disclosure in that it contains Safeguards Information of a type specified in 10CFR73.21.

Sincerely,

Joseph P. Beratta
