WILLIAM G. COUNCIL
EXECUTIVE VICE PRESIDENT

CPRT-279

Mr. Vincent S. Noonan
Director, Comanche Peak Project
Division of Licensing
U. S. Nuclear Regulatory Commission
Washington, D.C. 20599

**SUBJECT: COMANCHE PEAK STEAM ELECTRIC STATION
COMANCHE PEAK RESPONSE TEAM
OVERVIEW QUALITY TEAM**

Dear Mr. Noonan:

Appendix G to the CPRT Program Plan, Revision 3, describes the Quality Assurance Program applicable to CPRT Third-Party activities. Appendix G is a re-statement, in much greater detail, of the Policy on Quality Assurance included with our letter of August 16, 1985 (TXX-4538). As noted in Appendix G, the Senior Review Team shall remain cognizant of, and have overall responsibility for, the quality of CPRT activities. To support the Senior Review Team in fulfilling its responsibilities, the Overview Quality Team (OQT) has been established to provide further assurance that the Design Adequacy and Quality of Construction Quality Assurance Programs are effectively implemented.

The OQT is composed of senior third-party personnel reporting to the Chairman of the Senior Review Team. The OQT will support the Senior Review Team by reviewing the results of all audits of CPRT activities, as well as, the corrective actions taken in response to those audits. Such audits include all planned and periodic audits conducted by the Quality Assurance organizations of the DAP and QA/QC Review Teams, as well as any audits of CPRT activities conducted by the NRC or TUGCO. The OQT may also conduct special audits, as directed by the Senior Review Team Chairman. Such audits will be performed to directly evaluate CPRT quality assurance activities routinely or as significant problems with the CPRT quality assurance activities are identified. By performing these overview and audit functions, the OQT supplements CPRT quality assurance efforts and provides further assurance that CPRT quality commitments are implemented.

Page No. 2

The OQT shall issue periodic reports including, when appropriate, summaries of results of major OQT tasks. The OQT shall also issue a final report to present the results of its entire overview effort and its corresponding conclusions regarding the adequacy of Quality Assurance Program implementation by the DAP and QA/QC quality assurance organizations. The OQT periodic and final reports will be submitted concurrently to the Senior Review Team Chairman and the TUGCO Executive Vice President, thereby ensuring that TUGCO senior management is kept fully informed of the status of CPRT quality assurance implementation.

The attached Figure 2 of Appendix G to the CPRT Program Plan, Rev. 3, which was inadvertently omitted from our January 27, 1986 submittal, illustrates the flow of information to the Senior Review Team resulting from CPRT quality assurance activities. This figure should be inserted immediately behind Figure 1.0 in Appendix G, Rev. 3.

I am satisfied that the additional level of quality assurance provided by the OQT will ensure the continued effective implementation of the DAP and QA/QC Quality Assurance Programs. If you have any questions regarding this letter, please contact John W. Beck or myself.

Very truly yours,

W. G. Council

WGC:tj
