Docket No. 50-10
Docket No. 50-237
Docket No. 50-249

Commonwealth Edison Company
ATTN: Mr. Cordell Reed
Vice President
Post Office Box 767
Chicago, IL 60690

Gentlemen:

This is in response to your letter of December 13, 1985 which requested a review of a prior violation and our conclusions as discussed in NRC Region III Inspection Report No. 50-249/85026. The specific violation related to the fact that the Technical Specifications for Unit 3 had not been updated to reflect the removal of a reference to another part of the Technical Specification, when the referenced section itself had been deleted.

We have carefully evaluated the additional information that was provided in your response of December 13, 1985. We note that leaving the improper reference in the Unit 3 Technical Specification did not result in any actions which caused an improper action by any operator nor in any action inconsistent with the Unit 2 Technical Specification. Consequently, we have concluded that the violation should be withdrawn. We will adjust our records accordingly.

We acknowledge the administrative revision you have submitted to delete this particular reference. We also suggest that you review your internal procedure for onsite reviews, to assure that Technical Specifications are accurate.

Sincerely,

Original Signed by C.E. Norelius
