Washington, D. C. 20555

Gentlemen:

River Bend Station-Unit 1
Docket No. 50-458
NRC Bulletin 88-04

Gulf States Utilities Company (GSU) provided a response to NRC Bulletin 88-04 "Potential Safety-Related Pump Loss" on July 7, 1988 (RBC-28213). One of the concerns of this bulletin required verification that vendor specified minimum flow values for safety-related centrifugal pumps were adequate. At the time of the original response submittal, GSU had not received such verification from the RCIC pump vendor and had committed to provide it when it was received. The minimum flow value specified for the RCIC pump has now been verified by the pump vendor as adequate.

Sincerely,

J. E. Booker
Manager-River Bend Oversight
River Bend Nuclear Group
