Docket Nos. 50-317 and 50-318
License Renewal

ASLBP No. 98-749-01-LR

October 1, 1998

PETITIONER'S MOTION REQUESTING TO BE INFORMED OF
COMMUNICATION BETWEEN THE NRC STAFF AND APPLICANT

The National Whistleblower Center (Petitioner), requests that the Nuclear Regulatory Commission Staff (Staff) and Baltimore Gas and Electric Company (Applicant) include the Center and the Licensing Board on the service list for all written communications directly or indirectly related to Applicant's pending license renewal application for Calvert Cliffs Nuclear Power Plant, Units 1 & 2. Petitioner also requests that written notification be given of all status meetings concerning this Application before they occur.

The Center, hereby respectfully, makes this request for good cause based upon the fact the Commission has placed strict time constraints on this proceeding. The Petitioner is harmed by the fact that it takes two weeks to a month for documents to become available in NRC's public document room. An example that clearly demonstrates this harm is the fact that a letter dated August 28, 1998 from the Staff requesting a significant amount of additional information on BG&E's Application was not placed in the public document room until September 22, 1998.

DS03

(See attached letter). It is critical and essential to the Petitioner's ability to effectively participate in this proceeding to be informed of such communications and requests for information.

CONCLUSION

For the reasons stated above, Petitioner respectfully moves this Licensing Board to require the NRC staff and the Applicant to put the Petitioner and the Licensing Board on the service list and give notice of all communications between them regarding the BG&E's Application for License Renewal.

Respectfully submitted,

Stephen M. Kohn
