Mr. Oliver K. Kingsley, Jr.
Vice President, Nuclear Operations
System Energy Resources, Inc.
P. O. Box 23054
Jackson, Mississippi 39205

Dear Mr. Kingsley:

SUBJECT: REQUEST FOR HOURLY METEOROLOGICAL DATA TAPE - GRAND JLF
NUCLEAR STATION (GGNS), UNIT 1 (TAC NO. 66783)

The NRC staff is performing an evaluation of offsite dose consequences for the plants selected for study in NUREG-1150, "Reactor Risk Reference Document," including GGNS, Unit 1. In order to complete its evaluation for GGNS, Unit 1, the staff needs an annual cycle of onsite meteorological data. The meteorological data should be in accordance with Standard Review Plan (SRP) Section 2.3.3, and the data format should be an hourly meteorological data tape having the characteristics of Appendix A to SRP Section 2.3.3.

By letter dated January 11, 1988, System Energy Resources, Inc. provided a computer tape in response to our request dated December 22, 1987. However, the tape appeared to be business data regarding product production. The tape will be returned. Please provide the requested meteorological data tape. If there are any questions regarding the needed data, contact Joseph R. Levine, (301) 492-3150.

In order to support our review schedule, you are requested to provide the above information by May 13, 1988. This request was discussed with Mr. Matt Crawford on May 2, 1988.

The reporting and/or recordkeeping requirements of this letter affect fewer than ten respondents; therefore, OMB clearance is not required under P. L. 96-511.

Sincerely,

151

Lester L. Kintner, Sr. Project Manager
Project Directorate II-1
Division of Reactor Projects I/II
