Director
Office of Nuclear Reactor Regulation
Attn: Document Control Desk
U. S. Nuclear Regulatory Commission
Washington, DC 20555

DOCKET NUMBER 50-264

Sir:

Enclosed are copies of the Technical Specifications for the Dow TRIGA Research Reactor containing modifications requested by Mr. Alexander Adams, Project Manager. This modification is intended to supplement the application of the Dow Chemical Company for a renewal of operating license R-108.

Very truly yours,

L. W. Rampy
Chairman, Radiation Safety Committee
