Re: Nine Mile Point - Unit 2
Docket No. 50-410
NPF-69

Gentlemen:

In our letter dated June 22, 1988 that was submitted in response to Inspection Report 50-410/88-10, Niagara Mohawk stated that two courses covering "pneumatics" and "valves" would be offered by October 1, 1988. These courses are part of Instrumentation and Control (I&C) Technicians Initial Training. The vendor with whom we contracted to present these courses will not be able to commence training until later in the month of October or early November, 1988. Therefore, our schedule has been revised to have I&C Initial Training fully implemented by November, 1988.

Very truly yours,

NIAGARA MOHAWK POWER CORPORATION
