

September 9, 1988

MEMORANDUM FOR: Richard W. Krimm
Assistant Associate Director
Office of Natural and Technological Hazards
Federal Emergency Management Agency

FROM: Frank J. Congel, Director
Division of Radiation Protection
and Emergency Preparedness
Office of Nuclear Reactor Regulation

SUBJECT: SEABROOK REPORTS

The purpose of this memorandum is to confirm the schedule for the issuance of FEMA's findings and determinations on the offsite emergency plans for Seabrook. As agreed to in staff discussions and in the prehearing conference of August 3 and 4, 1988, the FEMA report of the full participation exercise conducted on June 28 and 29, 1988, was issued on September 2, 1988. Further, in accordance with the agreed to schedule, the FEMA findings resulting from the review of the utility prepared Seabrook Plan for Massachusetts Communities (SPMC) will be issued on October 14, 1988. The exercise and SPMC report dates are a change from the November 1, 1988 date (120 days following the exercise) referred to in my memorandum to you on June 3, 1988.

We understand that the FEMA plan review report on October 14, 1988 will present FEMA's findings on the SPMC review only and will not include FEMA's findings on the review of the emergency plans for New Hampshire and Maine. These findings will be provided at a later date on a schedule to be established in discussions between our respective staffs.

Please express our appreciation to your Headquarters and Regional staffs for their efforts in issuing the Seabrook exercise and SPMC reports on an expedited basis.
