LICENSEE: GPU Nuclear Corporation  
Jersey Central Power and Light Company

FACILITY: Oyster Creek Nuclear Generating Station

SUBJECT: SUMMARY OF PROGRESS REVIEW MEETING REGARDING STATUS  
OF LICENSING ACTIONS

On Thursday, April 14, 1988 a meeting was held at Energy Spectrum, Oyster Creek Nuclear Generating Station, Forked River, New Jersey, with GPU Nuclear Corporation (GPUN, the licensee) to discuss the status of Oyster Creek licensing actions. Attachment 1 is the list of the individuals participating in the discussion.

Attachment 2 is a marked-up copy of the staff's Regulatory Information Tracking System (RITS) dated March 28, 1988 for Oyster Creek. The markup to update the RITS resulted from the discussion on each item or TAC number in this meeting. The status of each item is given in the last column (SC, TD, AD, TE) on the right-hand side of the RITS sheets. The status in that column is the following: "01" means licensee, "02" means staff's reviews, and "03" means staff's Project Manager and "04" means complete.

The updating of the RITS for Oyster Creek was done during the discussion on each licensing action in this meeting. The licensing action items are listed by TAC number (left-hand column of RITS). The licensee stated that GPUN will markup the "Other Completed Licensing Actions Not Yet Implemented" and will provide implementation dates at the next status meeting. A discussion related to future actions was also held.

**"ORIGINAL SIGNED BY:"**

Alexander W. Dromerick, Project Manager  
Project Directorate I-4  
Division of Reactor Projects I/II
