Daniel P. Boylan	55-62076	OP-11244

On September 3, 1998, a medical examiner from PECO Energy Company's Occupational Health and Safety Department determined that this individual no longer meets the standards as set forth in Section 5.4.11 of American Nuclear Society Standard ANSI/ANS 3.4-1983, "Medical Certification and Monitoring of Personnel Requiring Operator Licenses for Nuclear Power Plants," as originally certified to the NRC.

The specific medical condition is identified in Attachment 2 which contains confidential information, the disclosure of which would constitute an unwarranted invasion of the personal privacy of the individual involved. Therefore, the information in Attachment 2 is being submitted to the Commission with a request that it be withheld from public disclosure in accordance with 10CFR2.790(a)(6) of the Commission's Regulations, and is only being submitted to the Regional Administrator, U.S. NRC Region I. Attachment 1 to this letter is an Affidavit setting forth the reasons in support of this request to withhold from public disclosure. The medical condition is being accommodated through an appropriate medical regime prescribed by the individual's primary care provider.
