Docket Nos. 50-369 and 50-370
Technical Specification Amendment
Annual Radiological Environmental Operating Report

Dear Sir:

By letter dated February 22, 1988 several administrative changes to McGuire's Technical Specifications were requested. One change in particular was proposed for Section 6.9.1.6.

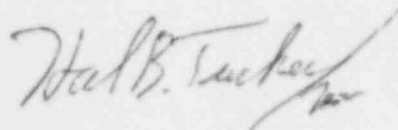

By separate letter dated April 22, 1988 changes were requested to Section 6.9.1.6 for both the McGuire and Catawba Technical Specifications.

It is requested that the changes to Section 6.9.1.6 in the April 22, 1988 letter supercede those contained in the February 22, 1988 for the McGuire Technical Specifications.

Since this letter is a followup to previous transmittals, no license fee is required.

Pursuant to 10 CFR 50.91(b)(1), the appropriate North Carolina State Official is being provided a copy of this submittal.

Very truly yours,

Hal B. Tucker
