Boston, MA 02108

Dear Mr. Barry:

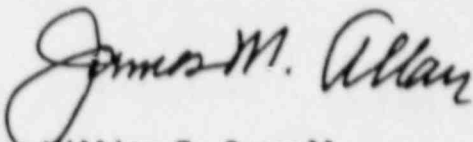

This letter forwards a copy of transcripts of the oral statements made during the public meetings held by NRC on February 18, 1988, in Plymouth, Massachusetts, to receive public comments on the Pilgrim Nuclear Power Station Restart Plan. Also enclosed are copies of the written comments submitted during the meetings, as well as all comments received by mail during the announced comment period.

This material is provided for your information and review. Copies of this material have also been sent to the Boards of Selectmen and the public libraries within the Emergency Planning Zone, which had previously received copies of the Restart Plan, for public review.

The public comments are currently under NRC staff review. As previously announced, the NRC will hold another public meeting to discuss our disposition of the comments. We have tentatively scheduled this meeting for early May. We will announce the details of this meeting when they have been finalized. If you wish to participate in this meeting, please contact Marie Miller at (215) 337-5246.

Thank you for your cooperation on this matter.

Sincerely,

  
William T. Russell  
Regional Administrator
