Dear Ms. Russell:

This is in reference to your application dated May 25, 1985 and to your letter dated July 4, 1985 for a byproduct material license. In order to complete our review, we need the following additional information:

1. You should submit a copy of your business license as you indicated in your letter dated July 4, 1985. This is needed to assure that the NRC license references the correct legal name of your firm.
2. Your July 4, 1985 letter indicated that the manager of the F. Robert Bell Field Office will have a key to the gauge storage area. There is no objection to storing the device at that facility; but arrangements should be made to assure that no one can disturb the gauge without your authorization. You should describe the steps that will be taken to assure that no one else has access to the gauge.
3. Your emergency procedures should be amended to indicate the current address for NRC Region V. Please amend and resubmit page 1 of the "Operating Procedure" which was submitted with your letter dated July 4, 1985.

We will continue the review of your request for a byproduct material license upon receipt of this information. If we do not receive a reply from you within 30 calendar days from the date of this letter, we shall assume that you do not wish to pursue your application. Please reply in duplicate, and refer to Mail Control No. 70214.

Sincerely,
