ADVICE

With this letter I am requesting a hearing to review the grading of my written RO License Exam in accordance with the instructions contained in the September 7, 1998 letter from the Director of the Division of Reactor Controls and Human Factors, Mr. R. Lee Spessard.

I am requesting a hearing because I feel that not all of the questions reviewed under the informal NRC Staff review of my exam have been adequately addressed.

Due to the present refueling outage at Fermi 2 I have not been able to perform a complete review of the NRC's contentions of the reviewed questions. When my review is complete, and if I determine there is no need for further action, I may withdrawal my request for this hearing.

Sincerely,

Shaun P. O'Hern
