Subject: McGuire Nuclear Station
Docket Nos. 50-369, -370
McGuire Nuclear Station Training
and Qualification Plan, Revision 9
(August 8, 1988)

Gentlemen:

Pursuant to 10CFR 50.54 (p), please find attached the signed original and three copies of Revision 9 to the McGuire Nuclear Station Training and Qualification Plan. Revision 9 was developed to address the new 10CFR rules for record retention periods, several editorial changes to clarify training and qualification requirements, and the deletion of redundant information already stated in the plan or addressed in the station security plan.

Specific plan changes are addressed in the attached. Revision 9 does not decrease the effectiveness of the McGuire Nuclear Station Training and Qualification Plan.

This revision should be appropriately docketed.

Very truly yours,

Hal B. Tucker
