Reference: Beaver Valley Power Station, Unit No.1  
Docket No. 50-334, License No. DPR-66  
Proposed Operating License Change Request No. 154

Gentlemen:

Enclosed are:

1. An Application for Amendment to the above operating license to add the Incore Thermocouples and Reactor Vessel Level Indicating System to the Accident Monitoring Instrumentation Tables.

This change was reviewed by the OSC and ORC and determined to be safe and does not involve an unreviewed safety question.

2. Documents designated Attachments A, B and C which set forth the change in Technical Specifications, the safety analysis and the no significant hazards evaluation.

A check in the amount of \$150.00 is attached as payment of the license amendment application fee in accordance with 10 CFR 170.

Very truly yours,

  
J. D. Sieber
