Dear Mr. Everett:

Following Dr. DiGiacchino's training at the Christiana Medical Center, Newark, Delaware from the 1st of December through the 31st of December 1985 I feel that he is clinically competent to handle the radionuclides approved for utilization in this institution. I also feel that he has displayed enough clinical acumen to interpret and diagnose the various Nuclear Medicine studies performed with the radionuclides listed on our license.

Sincerely,

R.L. Merkleburg, M.D.
Chief
Nuclear Medicine Section
