Gentlemen:

This refers to the inspection conducted by Mr. A. B. Earnest of this office during the period August 10-11, 1988, of activities authorized by NRC Operating License DPR-34 for the Fort St. Vrain Nuclear Generating Station, and to the discussion of our findings with members of your staff at the conclusion of the inspection.

The NRC inspector reviewed certain areas of your physical security program. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the NRC inspector. The inspection findings are documented in the enclosed inspection report.

Within the scope of the inspection, no violations or deviations were identified.

We have also examined actions you have taken with regard to previously identified inspection findings. The status of these items is identified in paragraph 2 of the enclosed report.

The material enclosed herewith contains Safeguards Information as defined by 10 CFR Part 73.21 and its disclosure to unauthorized individuals is prohibited by Section 147 of the Atomic Energy Act of 1954, as amended. Therefore, the material, with the exception of the report cover page which is an inspection summary, will not be placed in the Public Document Room.

Should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely,

Original Signed By
A. B. Beach
