ILLINOIS POWER COMPANY

CLINTON POWER STATION, P.O. BOX 678, CLINTON, ILLINOIS 61727.

May 12, 1988 10CFR50.36

Docket No. 50-461

Mr. A. B. Davis
Regional Administrator
Region III
U.S. Nuclear Regulatory Commission
799 Roosevelt Road
Glen Ellyn, Illinois 60137

Subject: Clinton Power Station Snubber Sample Plan

Dear Mr. Davis:

In accordance with the Clinton Power Station, Technical Specification section 4.7.4, a snubber plan for the first refueling outage has been selected. Initially, 10% of each type of snubber will be tested. For each snubber that fails to meet the functional test acceptance criteria of section 4.7.4.e of the Technical Specifications, an additional 10% of that type of snubber will be tested until no further failures are found or until all snubbers of that type are tested. This test plan is in accordance with section 4.7.4.e.l of the Technical Specifications.

If you have any questions on this, please contact me.

Sincerely yours,

F. A. Spangenberg, III

In care for
