SEP 12 1988

Wolf Creek Nuclear Operating Corporation
ATTN: Bart D. Withers
President and Chief Executive Officer
P.O. Box 411
Burlington, Kansas 66839

Gentlemen:

This is to advise you of a maintenance team inspection that has been scheduled to be performed at the Wolf Creek Generating Station during the weeks of September 19, 1988, and October 3, 1988.

We have discussed this inspection effort with Mr. Otto Maynard and other members of your staff. These discussions included a meeting at the Wolf Creek site on August 31, 1988, between Messrs. James E. Gagliardo and Raymond P. Mullikin of the Region IV staff and Messrs. Rhodes, Boyer, Maynard, and their staff. This inspection will be a performance based inspection that is designed to assess the effectiveness of the Wolf Creek Maintenance Program.

The team leader for this inspection is Mr. Raymond P. Mullikin, who has been and will continue to be our principle contact for this inspection. The inspection team will consist of a Region IV reactor inspector (Mr. Robert Vickrey), a Region IV radiation protection specialist (Mr. Ronald E. Baer), the Wolf Creek senior resident inspector (Mr. Bruce L. Bartlett), and two consultants (Messrs. Mike Trojovsky and Quinn Decker). Mr. James E. Gagliardo, the Region IV manager of the maintenance team inspection efforts will also assist the team in evaluating management control of maintenance activities.

The inspection team is scheduled to arrive on site on the morning of September 19, 1988, and those who are not currently badged at the Wolf Creek site will receive the appropriate site-specific training to be badged for unescorted access. The information required for unescorted badging has been provided in separate correspondence.

The inspection team is scheduled to hold an entrance interview at approximately 11:00 a.m. on September 19, 1988. The exit interview will be scheduled for October 7, 1988 at a time that is suitable to your staff and the team. The team leader will debrief your staff regarding preliminary findings and concerns on a daily basis.
