ATTN: Mr. Lyall Johnson  
Chief Licensing Branch  
Division of Civilian Application

Dear Sir:

*JS*  
Under date of February 18, you provided us with Revision No. 1 to our License No. C-240 covering approval to receive possession of and title to two thousand pounds of raw source material and twenty-two pounds of refined source material. We now find a need for an additional twenty-two hundred pounds of refined source material and would like to have our license further revised to give us permission to hold title to this extra material (2200 pounds) or a total of 4200 pounds of raw source material.

We appreciate your consideration of this license request.

Very sincerely yours,

*G. A. Webb*
