The Committee to Review Generic Requirements (CRGR) met on Wednesday, August 10, 1988 from 1-5 p.m. and on August 16, 1988 from 12:30-2:00 p.m. A list of attendees for this meeting is attached (Enclosure 1). The following items were addressed at the meeting:

The Committee recommended issuing the final Reg. Guide subject to incorporation of several recommendations (to be reviewed by CRGR staff). This matter is discussed in Enclosure 2.
2. A. Serkiz (RES) and F. Rosa (NRR) presented for CRGR review a proposed Rev. 3 to Reg. 3. A. Thadani (NRR), W. Hodges (NRR) and G. Thomas (NRR) presented for CRGR review a proposed NRC staff SER on the BWR Owner's Group Topical Report NED-31331, "BWR Owners' Group, Emergency Procedure Guidelines, Revision 4." The Committee recommended issuing the proposed SER subject to incorporation of several recommendations (to be reviewed by CRGR). The Committee questioned whether this document presents policy issues which may require Commission review. The two issues identified by the Committee involve the decision to vent containment in an accident and the line of authority to make that decision. This matter is discussed in Enclosure 4.

In accordance with the EDO's July 18, 1983 directive concerning "Feedback and Closure of CRGR Reviews," a written response is required from the cognizant office to report agreement or disagreement with the CRGR recommendations in these minutes. The response, which is required within five working days after receipt of these minutes, is to be forwarded to the CRGR Chairman and if there is disagreement with CRGR recommendations, to the EDO for decisionmaking.
