Nuclear Regulatory Commission,
Washington, D.C. 20555

OFFICE OF PUBLIC SERVICE
DOCKETING BRANCH

Dear Sirs:-

I am writing this to register my opposition to starting up the Seabrook nuclear power station, with or without sirens.

I favor coal fired, with scrubbers, for Seabrook and all other nuclear power stations in our country.

We should have had the chance to vote on the issue before these were installed, but we do it now, better late than never.

Sincerely,
Miss Olga Koberger
