Comanche Peak Project Division  
Office of Special Projects

SUBJECT: COMANCHE PEAK DOCUMENT WITH MISSING  
ENCLOSURE (ACN 8709290419)

It has recently come to my attention that TU Electric letter TXX-6783 dated 9/23/87 (ACN 8709290419) was received for DCD processing without the referenced enclosure. A copy of the enclosure, designated by me as the original, is attached. I would like you to arrange for reprocessing and redistribution of the document to marry its enclosure with it. Of greatest importance is to assure that the PDR-H St., the LPDR, and central files receive copies of the complete document as soon as possible.

Please call me if there are any questions.
