OFFICE OF REGULATORY  
DOCKETING & SERVICE  
BRANCH

William G. Council  
Executive Vice President

April 19, 1988

Secretary, U. S. Nuclear Regulatory Commission  
ATTN: Docketing and Service Branch  
Washington, D.C. 20555

SUBJECT: COMANCHE PEAK STEAM ELECTRIC STATION (CPSES)  
NUCLEAR POWER PLANT ACCESS AUTHORIZATION PROGRAM  
POLICY STATEMENT

Gentlemen:

The TU Electric Company strongly supports issuing the Nuclear Regulatory Commission Policy Statement endorsing the Nuclear Utility Management and Resource Committee (NUMARC) Guidelines (Revision 8.A) published in the Federal Register, Volume 53, No. 46, Wednesday, March 9, 1988, Pages 7534-7539, versus the rulemaking option.

If the policy option is selected, commitments to adhere to the NUMARC Guidelines will be formalized through amendments to the Comanche Peak Steam Electric Station (CPSES) Physical Security Plan and subject to inspection and enforcement by the NRC.

The above action will ensure that individuals who require unescorted access to the protected areas or vital areas are trustworthy, reliable, emotionally stable and do not pose a threat to commit radiological sabotage.

Very truly yours,

W. G. Council
