Gentlemen:

This refers to the inspection conducted by Messrs. Nemen M. Terc and Charles A. Hackney of this office during the period December 9-13, 1985, of activities authorized by NRC Operating License No. NPF-47 for River Bend Station and to the discussion of our findings with Mr. J. Deddens, Vice President River Bend Nuclear Group and other members of your staff at the conclusion of the inspection.

Areas examined during the inspection included emergency preparedness training, changes to the emergency plan and followup improvement (Appendix B) items from the emergency appraisal. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspectors. These findings are documented in the enclosed inspection report.

During this inspection, it was found that certain of your activities were in violation of NRC requirements. Consequently, you are required to respond to these violations, in writing, in accordance with the provisions of Section 2.201 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations. Your response should be based on the specifics contained in the Notice of Violation enclosed with this letter.

The response directed by this letter and the accompanying Notice is not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.
