U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

FREEDOM OF INFORMATION
ACT REQUEST

FOIA-85-745
Rec'd 11-12-85

Dear Sir or Madam:

This is a request under the Freedom of Information Act, as amended.

I would like to receive a copy of any and all papers delivered at the International Meeting on Reduced Enrichment for Research and Test Reactors held October 14-16, 1985 in Petten, The Netherlands, and which are in the possession of NRC.

The Committee to Bridge the Gap is a non-profit public interest organization which has been actively involved in the development of NRC's rule curbing the use of highly enriched uranium. We are tax-exempt under section 501(c)(3) of the tax code. The requested documents will be used in our ongoing research on conversion of non-power reactors to low enriched uranium fuels. Results of our research have been and will continue to be widely disseminated. We have presented our work on numerous occasions in testimony before the Commission, the ACRS, and the Congress. Our work based on the requested documents will be provided without charge, as always, to interested members of the public around the country and to the news media. Pursuant to 10 CFR 9.14a, we therefore request a waiver on fees for search and copying of records.

Thank you.

Sincerely,

Steven Aftergood
