Dear Mr. Fay:

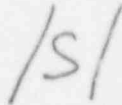

SUBJECT: POINT BEACH OFFSITE DOSE CALCULATION MANUAL (ODCM) - TACS 61628  
AND 61629

In a letter dated February 22, 1988, you submitted Point Beach ODCM, Revision 1, for NRC staff review. With the assistance of our contractor, EG&G Idaho, Incorporated, we have completed the review of the Point Beach ODCM.

Our review findings are discussed in the enclosed Safety Evaluation with the attached EG&G contractor's report. In general, we conclude that the ODCM uses methods which are consistent with staff guidelines. However, a number of discrepancies have been identified which will require revision of the ODCM. Some of these discrepancies relate to the Point Beach Environmental Manual, Revision 4, submitted by your letter dated January 20, 1986.

We request that you revise the ODCM and the Environmental Manual in accordance with the enclosed comments, and resubmit them for our review. Please contact us if you have any questions concerning this request.

Sincerely,

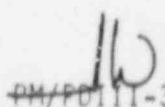

David H. Wagner, Project Manager  
Project Directorate III-3  
Division of Reactor Projects - III,  
IV, V and Special Projects
