Ms. Nancy H. Williams  
Project Manager  
Cygna Energy Services  
2121 N. California Blvd., Suite 390  
Walnut Creek, California 94596

OFFICE OF SECRETARY  
DOCKETING & SERVICE  
BRANCH

Dear Ms. Williams:

Subject: In the Matter of  
Texas Utilities Electric Company, et al.  
Comanche Peak Steam Electric Station  
Units 1 and 2  
Application for an Operating License  
Docket Nos. 50-445-OL and 50-446-OL  
and  
Construction Permit Amendment  
Docket No. 50-445-CPA

Projected Schedule for Issuance  
of Cygna's Phase IV Report

CASE would appreciate your advising at your earliest opportunity whether or not you have a projected schedule for issuance of Cygna's Phase IV Report(s). We understand that this may not be a schedule which contains absolutely firm dates, but it would be helpful (if you know at this time) if we could have your ballpark estimates. It would also be helpful (if you know at this time) to know if you anticipate issuing one combined report or if there will be several reports.

We want to emphasize that we are not rushing you, and if you do not presently already have such a projected schedule, this is not a request that you prepare one. As we have mentioned in past pleadings, we certainly would prefer that Cygna take as much time as it needs to do a thorough and complete job rather than rush to meet any real or implied timetable. It would be helpful to us just to know whether or not you presently have such a schedule and, if so, what it is. We need any such already-available information to assist us in preparation of some matters which will be discussed at the upcoming Prehearing Conference currently scheduled for June 1.

Thanks much,

CASE (Citizens Association for Sound  
Energy)
