Amendment Re: Technical Specification Safety Limit
Minimum Critical Power Ratio (TAC NO. MA2003)",
dated September 21, 1998

Subject: Transmittal of Cycle 7 Core Operating Limits Report

In accordance with Fermi 2 Technical Specification 6.9.3, Detroit Edison hereby submits a copy of the Core Operating Limits Report (COLR), Cycle 7, Revision 0. This COLR will be used during the Fermi 2's seventh operating cycle which is scheduled to begin in October 1998.

Reference 2 issued License Amendment 129 on Safety Limit Minimum Critical Power Ratio. In this reference, the NRC requested that Detroit Edison submit a letter informing the NRC when this amendment is fully implemented. This letter is to notify the NRC that Detroit Edison has fully implemented Amendment 129 on October 8, 1998.

If you have any questions concerning this submittal, please contact Mr. Norman K. Peterson at (734) 586-4258.

Sincerely,
