Proposed issuance of Amendments to the Facility
Operating License No. DPR-67 issued to Florida Power and
Light Company to expand the spent fuel facility for St.
Lucie Plant, Unit No. 1.

REQUEST FOR A POSTPONEMENT
OF DEADLINE FOR SUBMISSION OF BRIEF
FOR AN ADDITIONAL 14 DAYS

Petitioner has been granted 10 days for submission of a
brief in response to licensee's appeal of the decision of the
Atomic Licensing Board's decision granting petitioner's request
for a public hearing and right to intervene.

Pctitioner requests this postponement for the following
reasons:

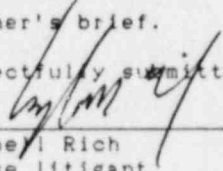

1. Petitioner is a fully employed pro se litigant and is
able to prepare his brief only during non-business hours.
2. The hours during which the public document room are
open to the public are restrictive and make it difficult for the
Petitioner to have an opportunity to adequately examine
documents.
3. The appeal by the licensee is completely unexpected and
the Petitioner has not had an opportunity to prepare his brief in
advance.
4. The Petitioner has focused his efforts on the technical
aspects of the issues and has not had an opportunity to address
the legal issues which will be addressed in his brief in response
to Licensee's appeal.
