

MAR 05 1986

Docket No. 50-305

Wisconsin Public Service Corporation
ATTN: Mr. D. C. Hintz
Manager
Nuclear Power
Post Office Box 19002
Green Bay, WI 54307-9002

Gentlemen:

The Nuclear Regulatory Commission has completed its SALP assessment relating to the performance of Kewaunee Nuclear Plant and will present its findings at a meeting on April 3, 1986, at 11:00 a.m. at the Kewaunee Nuclear Power Plant. Arrangements for this meeting were made between D. J. Ropson of your staff and R. L. Nelson of Region III on February 28, 1986.

We encourage Wisconsin Public Service Corporation to have appropriate corporate and plant management representation at the meeting to ensure a mutual understanding of the issues and findings being presented by NRC.

While this meeting is considered a presentation and discussion forum between Wisconsin Public Service and the NRC, the meeting will be opened to any other interested parties as observers. Those persons outside the licensee and NRC staffs should inform the Regional Office of their intent to participate.

We hope this meeting will benefit your organization and provide you with a meaningful characterization of the overall safety performance for the Kewaunee Plant.

Sincerely,

"Original Signed by C.E. Norelius"
C. E. Norelius, Director
Division of Reactor Projects
